AMERICAN LEAGUE

INDIANS DIVIDE WITH TIGERS.

Leaders Make Certain of a Tie for First Place, at Least, Chicago Losing.

Detroit, Oct. 1. — Cleveland, fighting for the American league pennant, made certain of at least a tie by dividing a double header with Detroit while Chicago was losing a game today.

The visitors lost the first game, when in the tenth inning Shortstop Sewell threw Flagmead's groundout wild, and Pinelli followed with a clean single. The Indians' victory in the second game was a decisive one, the score being 10 to 3.

Fifteen Cleveland hits, six of them for extra bases, and four Detroit errors contributed to the result, the league leaders scoring in every inning but the second.

Cleveland and Chicago each have two games left to play and should the Indians lose both while Chicago wins two a tie would result.

In the opener today, Walter Mails held a four run lead when Detroit solved his delivery in the eighth and tied the score. Uhle, who succeeded him, was taken out after passing one man in the eighth inning.

Caldwell was in several tight places and was hit freely in the second game, but his support stood up fairly well behind him considering the cold weather.

First game: R H E
Cleveland .. 2200000000-4 7 3
Detroit .. 0000000401-5 11 0
Batteries — Mails; Uhle, Bagby and O'Neill; Etkins and Manion.

DIMS WHITE SOX'S HOPES.

St. Louis Defeats Reorganized Chicago American Team by Score of 8 to 6.

St. Louis, Oct. 1. — St. Louis dimmed Chicago's pennant hopes today, defeating the White Sox 8 to 6 in the opening game of the series of three that rounds out the American league race.

Ineffective pitching and inability to hit in the paches cost Chicago the game today.

The game was the first in which Chicago has participated since seven members of the club were suspended in connection with the world series gambling revelations. As a result, Manager Gleason presented a lineup that was almost completely changed from that with which he went through the season.

RAILS STILL MOVE TO BETTER LEVELS

Sugar Issues Break Two to Six and a Half Points in Day's Market Session

New York, Oct. 1. — The only appreciable change in the stock market today from that of recent sessions was the more divergent character of the trading. Rails continued to improve, while numerous popular industrials and specialties were at lowest prices in many months.

Among the stocks most affected today were several sugar issues which broke 2 to six and a half points. South Porto Rico sugar distinguishing itself by a sheer discount of 15 points on a few transactions. Anomalous trade condition, notably the disparity between the raw and refined products, accounted mainly for the slump.

The rise in rails was the most impressive of the current movement, most of the junior western and south-western shares gaining one to three points. Investment transcontinentals and grangers rose on to three and a half, notably Norfolk and Western and Lehigh Valley, made similar gains. The entire list strengthened on reports of a probable avoidance of the British coal strike.

An eight per cent quotation represented the high call money quotation of the day, especially standard rails and industrials, made variable gains. Old United States bonds were unchanged on call.

NAME CANADA'S DELEGATES.

Ottawa, Oct. 1. — Canada's delegation to the first meeting of the assembly of the League of Nations, will consist, it is understood, of Sir George Foster, minister of trade and commerce, Hon. C. J. Dougherty, minister of justice, and Hon. N. W. Rowell, formerly president of the privy council.

Canada is entitled to send three delegates to the assembly but in common with other members will have but one vote.

Sold formerly at \$5.00 a copy

NOW \$1.00, WHILE THEY LAST

As the evenings grow longer more people turn to books for pleasure and entertainment—we would suggest one of these fascinating stories:

ERKSINE DALL-PIONEERS by John Fox Jr. Erskine Dale, raised among the Indians, though of Virginia blue blood, is a splendid type of the people and the time—a romantic figure of the pioneer type—a companion of Clark, a participant in the border warfare, and finally in the great Revolution itself. Price \$2. This book is also in our Circulating Library.

HIDDEN CREEK by Katharine N. Burt. A novel that will be finished in a single memorable evening. It tells of a sense of actual participation in a great human drama of love and redemption. Price \$2. This title is in our Circulating Library.

KINDRED OF THE DUST by Peter B. Kyne is a love story of the great Northwest, and of the sort of people who grow there. Price \$2. This book is also in our Circulating Library.

FAIMETTO by Stella Perry. The romance of a Louisiana girl; a love story; a mystery and a romantic adventure set largely in the bayou region of Louisiana. Price \$1.90. This love story by a new writer is also to be found in our Circulating Library.

NO DEFENSE by Gilbert Parker is a real Parker romance, with high lights and deep shades, swift moving plot, with unexpected and unusual developments holding one in suspense until its climax. Price \$2. This new Parker story is also in our Circulating Library.

THE TOP OF THE WORLD by Ethel M. Dell. This is the story of a girl, Sylvia Ingleton, who pins all her faith upon the lover of her early youth, trusting he will marry her, after five years' separation she is not afraid to turn to him for refuge when the second marriage of her father makes her a step-mother. Price \$2. This new book is in our Circulating Library.

THE STORY OF OPAL. The Journal of an Understanding Heart. Teeming with human interest, love and tragedy, this story has startled the world by its self-taught wisdom and its naive charm. Price \$2.

MARY WOLLASTON by Henry K. Webber. Mary Wollaston, an American girl who stands by the face of life. She tries to see things just as they are and bravely grapples with them. Price \$2. This new book is in our Circulating Library.

FAZAN, THE UNTAMED by Edgar New Burroughs. Never has such a character come to you from the pages of a book, never has the human brain conceived so strange a creature as Fazan, the Aztec. Combine the romance of the Aztec, the story of the wild life of the Amazon, and you will understand why Fazan has proved the most successful story in recent fiction. Price \$1.90. Also in our Circulating Library.

OTSEGO COUNTY NEWS

WEST LAURENS WEDDING.

Mr. and Mrs. Elmer Gardner will have home in Otsego.

On October 1, at 10 o'clock, a wedding ceremony was held at the home of Mr. and Mrs. Elmer Gardner, when their only daughter, Miss Lena Emma Cogshall, became the bride of Elmer D. Gardner. The ceremony took place beneath a canopy of evergreens and was performed by Rev. E. O. Colbeck, pastor of the Baptist church at Morris.

The bride was attractively gowned in yellow satin mesaline and carried a large bouquet of yellow bridal roses. The ring bearer, Master Arthur Rogers, five years of age, carried a ring of yellow daisies and running race in which the ring was placed. The bride's bouquet was played by Mrs. Elmer Gardner as the bride party entered the parlor.

After the ceremony a delicious wedding dinner was served by Mrs. Lena Cogshall. Mr. and Mrs. Gardner left Sunday afternoon for a trip through the Catskills, Elkhartsville and various other points of interest. The bride's traveling suit was a plum color wool poplin with a black hat. The bride is a highly esteemed young lady and a graduate of the Morris high school and Training school.

The groom is a much respected young man of excellent character and is the son of Mr. and Mrs. Elmer Gardner of Otsego.

Mr. and Mrs. Gardner will make their home on a farm near Otsego.

A host of friends wish them much success.

MATTERS IN MARYLAND.

Maryland, Oct. 1.—The members of the faculty of the Maryland high school were very pleasantly entertained at dinner Tuesday by Rev. and Mrs. Connell of Schenectady. — Carl Hubbard had the misfortune to cut his finger quite severely Wednesday.

Mr. Upton Creamery Man Dead.

Worcester, Oct. 1.—J. W. Campbell, 42 years old, who for some time past had been employed in the Borden creamery at Mr. Upton, died Thursday evening at the home of his father, William Campbell, in this village. He had been suffering with diabetes for the past five years and his death was not unexpected. Funeral services will be held from the home here Sunday afternoon at 2 o'clock. Rev. C. B. Hendry will officiate and burial will be in Maple Grove cemetery.

Besides his father, Mr. Campbell is survived by his wife, one son, two brothers, P. M. Campbell of Worcester and E. P. Campbell of Fort Edward; and one sister, Mrs. C. H. Masters of Gloversville. Mr. Campbell was a native of West Troy, but had made his home in this vicinity for some time past.

Scenery Gets Stuck.

The scenery of the "My Lady Friends" which was loaded on the flat wagon and was headed for the D. & H. station after the show on Thursday evening, when turning the corner of Main and Broad streets, became stalled in the car track, the front wheel of the wagon catching between the switch track. It was about two hours before the show men were able to move the wagon either up or down Broad street. After trying various ways and breaking several parts of the wagon they succeeded by jacking the front wheel up, placing boards under the same. Had they planned to leave on the sleeper they would have been forced to remain in the city for another half day, but as they were going to Norwich they were not delayed.

MRS. JOHN CAPOZZI

Ashford, New York.

"I feel it my duty to tell you what 'Fruit-A-Tives' or Fruit Liver Tablets did for me.

I tried several kinds of physic for over three years; and, of course while I took it every night my bowels would move, but as soon as I stopped taking physic I would be constipated and would have piles terribly.

I heard of 'Fruit-A-Tives' and bought one box and took them. Now I am not troubled any more with Constipation and no more Piles. 'Fruit-A-Tives' did for me what no other medicine ever did; they left no after effects, and now I do not have to use physic.

I recommend Fruit-A-Tives to all my friends."

Will You Tell Me

Why so many people are constantly moving, marring their furniture, cutting their carpets to fit new rooms and having to fight other folks bed bugs and dirt, while for 21 years, I've given them a safe chance to make rent money pay for a home or farm of their own? Where's the fool killer? Say, young folks: Haven't thought much about it; have you? Well, you'd better get right down to brass tacks, double quick time and commence to safely place the measly amount of \$5 with me each month and in 12 months I will hand you 100 bucks and loan you the balance on easy terms, with which to get a home or farm of your own. Make it \$10 per month and I'll hand you 200 bucks. I've been safely doing this for little fellows, to the tune of several million dollars, without the loss of a dollar placed with me, and am still on the job. Its no gain to Uncle Sam and the 12 good and experienced Oneonta men who unselfishly help me, so do as you darn please, but don't go around whining and growling about not having a fair chance and a square deal. Not Sed. I am the safe and sane Oneonta Building and Loan association.

MOOSEHEART OPEN MEETING.

Held at the Oneonta Theatre Last Evening—Address by Supervisor.

An open meeting of the local order of the Moose was held last evening at the Oneonta theatre, between the two "movie" performances. The chairman of the lodge, Judge Bookes, introduced the district supervisor, P. H. Galvin of Rochester, who addressed the audience, touching on the order in general and the great vocational and educational opportunities which were connected with the lodge, maintained by the Order of Mooseheart, which is located in Illinois. This home, he said, "consists of about 1,650 acres of land, with over 50 buildings, with a valuation of over \$3,000,000, and maintains about 600,000 members. At the present time, nearly 900 children are cared for and educated there, among them several from this city. Each boy and girl who attends this institution receives a high school education and trade or profession."

After the meeting at the theatre, the members of the local lodge were addressed at the Moose home by Judge Bookes and by Mr. Galvin, who touched on the present campaign, which is taking place here. Remarks were also given by Past Director Southworth, who urged the members to double the present membership.

BACK TO STANDARD TIME

After Five Months City Returns to Almanac Time Monday—Schools, City Offices, Railway Shops, Banks and Other Activities Affected—Churches Remain on Daylight Saving Tomorrow Only.

On the first Tuesday evening of May the city council at a regular meeting voted to adopt the Daylight Saving plan for the summer, but to resume Standard time on midnight of Sunday, October 3. This time having practically elapsed, plans have in general been made to return to the old time, and probably without exception this will be done. The town clock, after midnight following Sunday, will be turned back one hour; the city offices will be open to the public on Standard instead of Daylight Saving time, and the hours of city employees in the various departments will conform to this arrangement.

In the Delaware and Hudson shops, in Oneonta, notices have already been posted calling attention to the change and giving notice that beginning on Monday the Standard time will be operative. This applies to all shop employees and other workmen of the company located and employed in Oneonta and who have been accustomed to begin and close work on Daylight Saving time, will be on Standard time, which is a half slower, beginning on Monday. This change will in no way affect the operating force of the road, or the clocks in the station, since trains have throughout the summer been operated on the Standard time; but it will gratify station and ticket agents, who many times daily for the past months have been called upon to make clear the situation and the difference between the two kinds of time.

The banks of the city, in one of which City time had been entirely and in the other to an extent operative, will both resume Standard time on Monday morning and the doors will be open at 9 a. m. and close at 3 p. m. The school authorities, it was also announced yesterday, will be on Standard time Monday morning, and pupils will have that extra hour for morning sleep which no doubt they have coveted. This applies both to the Normal and Public schools in all their branches.

The various manufacturing establishments of the city, which have been consulted, expressed general approval of return at this date to Standard time, and at a meeting of the Manufacturers' association last evening it was unanimously voted to make this change.

Churches on City Time Sunday.

As the resolution as adopted is understood to mean that the daylight saving period ends at midnight at the close of Sunday, the churches of the city for Sunday, October 3, will remain as heretofore, all the services being on Daylight Saving time as for the past five months. For the following Sunday the changes will doubtless be made in the churches.

INDUSTRY OBSERVES CHANGE.

Manufacturers' Association Decides to Run on Standard Time.

Representative of five industrial plants of Oneonta decided that their establishments would open Monday morning on Standard time, in accordance with the Common Council's ordinance, at a regular meeting of the Manufacturers' association last night at the Chamber of Commerce offices. Companies represented at the meeting who unanimously determined to drop Daylight Saving time along with the city and railroad shops, were Riverside Manufacturing company, Buckley Siks mills, and Julius Kayser & company. It is expected that all other industrial plants will join in the change.

Steps to start the community dances at the High school for the fall and winter months were also taken at the meeting. President A. C. Merritt of the Association announced that a committee from the Chamber of Commerce will cooperate with the manufacturers and the Federation of Social Welfare in making the dances more popular than ever this season. A joint meeting of the various committees will be called soon, it is anticipated.

Discussion or undertakings for the Chamber of Commerce also was taken up at the meeting, at the request of Secretary Everett Hicks of the Chamber. The representatives present talked over a number of projects which they thought should be included in the Chamber's program of work.

He Said:

"I went the town all thru' and back. To find a home—any shack. To rent. Take it from me it can't be found. No place exists above the ground. To rent. I bought a house without much holler. The terms were easy—see Klinghans & Collier. 11

They try to please and suit you best. Take my advice—they'll do the rest." Offices under the town clock. 11

FIRE PREVENTION DAY

Mayor Ceperley Issues Proclamation Setting Forth Necessity of Vigilance on Part of Householders.

President Wilson, appreciating the danger which comes through lack of care in prevention of fire, and the needs at this season of such caution as will prevent as large a number of fires as possible, Saturday of next week—one week from today—has been set apart in state, nation and city as Fire Prevention day. In the furtherance of this prevention work, which as a time like the present, when alike labor and materials are costly and scarce, Mayor Ceperley of Oneonta has appointed a special committee, announcement of which is made elsewhere in The Star, and has issued the following proclamation:

Proclamation by Mayor Ceperley.

WHEREAS, we are always confronted by danger from fire and the consequent loss of home, business place and property interests, and

WHEREAS, the present shortage of houses in our city make the destruction of buildings by fire especially serious, and

WHEREAS, a large percentage of fires could easily be prevented by more care and diligence on the part of all concerned, and

WHEREAS, President Wilson has designated Saturday, October 3, 1920, as Fire Prevention Day and has urged the people of the United States to consider the need of individual and collective efforts to conserve our resources,

THEREFORE, I, Andrew E. Ceperley, mayor of the city of Oneonta, New York, urge upon our citizens generally the need of careful inspection of their homes and business places and the proper safe-guarding of same from fire hazard. Furnaces and stove pipes should be looked after, repaired and cleaned; all accumulations of waste and refuse removed; chimneys relined or repaired where needed.

Landlords and owners of business blocks should see that tenants use reasonable care and precaution for the purpose of safety to themselves and others who may be endangered by carelessness. I would also urge all citizens to be sure to know the exact location of the nearest fire alarm box that no time be lost if a call upon the Fire Department is necessary, also quick use of the telephone where danger is imminent. In this Safety First week of Fire Prevention, I would earnestly ask the co-operation of churches, schools, Chamber of Commerce, business and fraternal organizations. The Boy Scouts can also render efficient service with proper guidance. We have been fortunate in having few large fires the past season; let us safeguard so far as possible from future danger.

ANDREW E. CEPERLEY, Mayor.

Women of Mooseheart Legion Meet.

At the Women of the Mooseheart meeting held last evening at the rooms on Dietz street, the following officers were nominated: Senior regent, Eva Southworth; junior regent, Lulu Ritter; chaplain, Nellie Ritter; recorder, Helen Merrill; treasurer, Hazel Merrill. These officers will be voted upon at the first meeting in November and will be installed at the last meeting in December. The other four officers will be chosen by the new senior regent at the beginning of the year. These officers are the guide, sentinel, assistant guide and the Argus.

HIDDEN FOR MANY YEARS.

Watches in Sidney Center Stone Wall Recall Old Theft.

Wednesday morning two gold watches were discovered in a stone wall near Sidney Center which the workmen were tearing down to get material to use in the construction of a new macadam road. One is a lady's watch and the other a gentleman's, and both had cases in fair condition, though it was at first almost impossible to open them.

The discovery brings to mind the burglary of the Menzer jewelry store at the Center about 22 years ago, when, after the store was broken into, it was set on fire, apparently to conceal the theft; the fire, however, being discovered before much damage was done. It is not known whether these watches were part of the plunder, but Mr. Menzer, who resides at Schenectady, may be able to identify them. One of those taken is said to have belonged to a deceased daughter of Mr. Menzer and to have been highly prized by him.

Ball Game This Afternoon.

The Saratoga division signal department, under the supervision of C. M. Ackert, and the Susquehanna division signal department, under the supervision of A. Vallee, will cross bats at Neelwa park this afternoon at 2 o'clock. This game is causing considerable interest among the D. & H. employees and no doubt will be a fight to the finish.

It is suggested by the management that a few D. & H. detectives be on hand in order to settle any arguments that may arise at this game. It is also suggested that both teams be sworn in before a notary public before the game is started to avoid any comment relative to the throwing of the game, so it will be understood that the best team has got to win. Admission free and the public invited.

Expands and Contracts EIGHT INCHES

The dome of the capitol at Washington is estimated to expand and contract about eight inches under extremes of heat and cold.

So you can see that elasticity is absolutely essential to paint. It does not take much expansion or contraction to break and crack a paint which is not elastic.

Patton's Sun-Proof Paint

is elastic and chemically stable—has good hiding qualities—covering capacity which makes it economical in comparison with other paints—the right consistency to give a coat of proper thickness.

It is a real protective and economical paint for the building owner. Ask for color schemes and suggestions.

"Patton's Sun-Proof" Paint

Is not just another paint, but is a scientific combination of lead, zinc and oil to protect and insure your building against decay as well as to improve the appearance of same and increase your valuable investment. This paint was chosen to protect government markers on the Lincoln Highway and therefore gets the extremes of climate conditions from coast to coast.

Pittman Aged Varnish is another product that we are proud to sell, as we know that it is a fine finish for all woods, either outdoor or in on furniture, floors and wood work.

Veluria Wall Paint continues to gain in popularity, for it gives that soft, satiny, washable wall that satisfies the most particular housekeeper.

MARRIAGES

Howell-Voorhees.

Miss Mildred Alberta Voorhees, daughter of Mr. and Mrs. Giles L. Voorhees, and one of the well-known and popular young ladies of Oneonta, was quickly married to Clarence R. Howell of East Moriches, Suffolk county, at the First Methodist parsonage at 10 o'clock yesterday morning by the Rev. Dr. B. M. Johns.

The bride and groom were attended by Dr. and Mrs. Lyman DeLamarter, intimate friends of the bride, and only the immediate families of the bride were present.

Immediately after the wedding ceremony, the couple started on an extended automobile trip through the northern part of New York state, expecting to visit Mesena, and return through the Adirondacks section, after which they intend to reside at 26 South street, Jamaica, Long Island, and will be at home after the 15th.

The bride is a graduate of the Oneonta Normal school, class of 1915, and since that time has been a successful teacher in the public schools at Islip, East Moriches and Patchogue. Mr. Howell is the only son of Supervisor Riley P. Howell, one of the best known public officials in Suffolk county, being at present supervisor of Brookhaven Town. The groom, after a period of service in the United States coast guard service on the Atlantic coast, is now an employee of the Pabst Electrical company of New York city.

"Y" Alleys Soon Will Open.

The bowling alleys at the Y. M. C. A. were in readiness to open yesterday, as had been announced, but the shipment of new pins failed to arrive on time, and it will be necessary to await their arrival before play begins. The alleys have been gone over during the summer months and are now in fine condition. Indications are that the coming winter will see the alleys kept red hot all the time.

Other improvements are being made to the "Y" building to put it in shape for the winter season. The two rooms in the rear, used for the boys, have been joined together and make a notable improvement, which the boys will appreciate.

AUTUMN LODGE SHINES

Pats on Much-Prized Drill at State Convention in Albany—Next Year's Meeting in Oneonta.

Forty members of the local Autumn lodge, the Ladies' auxiliary to the Brotherhood of Locomotive Firemen and Engineers, were in Albany this week, where they attended the fourth state meeting of the Ladies' society of the B. L. F. E. Many of the local women arrived home yesterday and were enthusiastic over the state meeting, and also proud that Autumn lodge carried off the honors at an official drill and that the next state meeting will be held in Oneonta.

Wednesday was the principal day of the meeting, for in addition to routine business, the assembly of women was addressed by Governor Smith. Approximately 100 women from all parts of New York state and from outside states, attended the convention, which was held in the Eastern Star chapter house, Albany, with the following lodges providing the entertainment: Fort Orange of Albany, Rensselaer city, Pride of Capital City, and C. A. Wilson lodges. Mrs. Sadie Schoenell of Huntington, Ind., grand president of the organization, responded to an address of welcome at the opening session.

Wednesday afternoon's session consisted of initiation of candidates, draping of charter, a debate and addresses by grand lodge officers, including Mrs. Grant C. Bates of this city, state instructor. At the evening session, an official drill was given by Autumn lodge which was pronounced by those in attendance to be the best ever given at any state meeting. The Oneonta organization invited the convention to hold its 1921 meeting in this city, and the invitation was accepted. The date for the convention has not yet been fixed, but it probably will be held at about the same time as this year. In the meantime, Autumn lodge will make elaborate preparations to welcome their guests next year.

FOR COX AND ROOSEVELT.

Democratic Women Organize Club at Enthusiastic Rally Last Evening.

At an enthusiastic rally of Democratic women in Oneonta, held last evening at Democratic headquarters at the corner of Main street and Ford avenue, plans were outlined for having the women take an active part in the local campaign. Miss Mary Cashel, representing the Women's bureau of the Democratic State committee, was present at the rally and after a brief address in which she lauded the Democratic standard bearers and said that it was vital to the country that they be elected next month, the large number of women present decided to organize a Women's Cox and Roosevelt club in Oneonta. The following officers were then elected:

President—Mrs. Zillah VanCleft.
Vice President—Mrs. Luelia B. Clarke.

Secretary—Miss Kathryn Lynch.
Treasurer—Mrs. Lurana Westcott.

The president was directed to appoint executive, publicity, and any other committees necessary, and the women plan to make themselves known in this campaign by conducting active work. It was decided to hold meetings at headquarters every Monday night, and the first will take place the coming week. Various speakers will be secured from time to time, and other features arranged.

Miss Lelah M. Ames of Cooperstown, chairman of the Women's Democratic County committee, was present at last night's rally and gave a brief talk urging support for the national and state tickets.

Missionary Tea Largely Attended.

Despite the none too favorable weather of last evening, there was an unusually large attendance at the semi-annual tea served by the Woman's Missionary society of the First Presbyterian church in the church parlors. Approximately 225 people sat down to the tables, which were loaded with good things, and the receipts were \$115, which will go for the good work the missionary society is always doing.

Needless to say, the menu was a delicious one and the meal left everyone fully satisfied. The corps of waitresses and kitchen force vied for honors.

Fidelity Class Elects Officers.

The Fidelity class of the Main Street Baptist church met at the home of Mrs. D. O. Webb yesterday afternoon. The following officers were elected:

President—Mrs. J. Charvlin.
Secretary—Mrs. G. Gadsby.
Treasurer—Mrs. E. Beams.

There were about 15 present who enjoyed the afternoon, which was closed by light refreshments.

FUNERAL OF MRS. MCCLINTOCK

Many Friends Present at Service Tuesday for Respected Resident.

West Kortright, Oct. 1. — The funeral services for the late Mrs. Susan McClintock, brief notice of whose sudden demise appeared in The Star of a few days ago, were held on Tuesday from the United Presbyterian church at this place, of which from its foundation she had been a member. The service was conducted by Rev. Mr. Davidson and two of her favorite psalms were rendered by the choir. She was a woman of steadfast Christian faith, a regular church attendant, and one whose helpful kindness to any in affliction exemplified the simplicity of her profession. Her death was in truth but "falling asleep in the Lord." Interment was in the local cemetery, the bearers being James Mitchell, Joseph Smith, F. B. Harford, Clarence Moscrip, William Mitchell and James Davidson.

The deceased was born in this township in 1849, her maiden name being Sarah Gibson. She was married to the late William B. McClintock in 1879, and is survived by one son, W. F. McClintock of East Meredith, and one daughter, Mrs. Marshall Roberts of Delhi; also one foster daughter, Mrs. Alice Sherwin of Syracuse, whom she brought up from childhood; three sisters, Mrs. J. M. Dickson, who resides in Ohio; Mrs. Sarah Mueller of Narrowsburg, N. Y., and Mrs. L. K. Frisbee of East Meredith; and one brother, J. T. Gibson of Susquehanna, Pa.; also one sister-in-law, Mrs. J. R. Gibson of Newark, N. J., and by three grandchildren.

Station Agents to Meet.

At the meeting of the station agents of the Delaware and Hudson railroad at the Fort William Henry hotel, Lake George, on Oct. 5, 6 and 7, talks will be given on railroad subjects by President L. F. Loree, Vice President W. H. Williams and others. Papers will be read by some of the agents. John E. Long, superintendent of safety for the railroad will give an illustrated lecture on safety first methods and results. This will be the first meeting held by the D. & H. agents since 1916.

Among those in attendance will be Station Agent Crockett and Day Ticket Agent Hunter of Oneonta; and it is probable that several of the company officials from this city will also be present.

All Enjoy First Baptist Social.

At the Christian Endeavor social given in the First Baptist church parlors last evening in honor of the Normal students, there were about 100 present. The evening was passed with games, after which light refreshments were served, consisting of sandwiches, rolls and coffee. Everyone reported having a good time.

The
Knit-tex
Coat

The man who drives his own car will never know what overcoat comfort is until he tries a Knit-tex.

When you bend forward to turn a switch on the dashboard—or raise the windshield—when you throw her into second—or make a sudden, sharp turn—there is no binding, no pulling, no discomfort.

The Knit-tex Coat "gives" with every movement of the arms or body, but falls back instantly into shape.

It never wrinkles and you can leave it in the car a month at a time without pressing.

It's as light as a feather and as warm as toast, and it will outwear three average overcoats.

No Reduction in Price of Oakland Sensible Six

At this time when the public mind is disturbed by sensationally announced price reductions of automobiles and other merchandise and commodities, we desire to give assurance to those who require Personal Passenger Transportation, such as provided by the Oakland Sensible Six, that we do not anticipate reducing the price of our cars.

Starting with the production of the raw material required and continuing through to the finished product, over 80 per cent of the cost of an Oakland Sensible Six is labor.

Over 80 per cent of the cost of all other automobiles produced in large quantities is labor.

When wages paid to labor are reduced, or when labor produces more per man, then many manufacturers of HONESTLY PRICED automobiles legitimately consider the reduction of their selling prices.

We have not heard of any instance where automobile workers are receiving lower wages.

If wages may be lowered eventually we see no immediate trend in that direction.

In the production of so essential a factor in our economic life as the passenger automobile — increasing as it does the

personal efficiency of owners by nearly 57 per cent — we believe the workers whose toil produces the vehicle should be large beneficiaries of the constructive character of their work.

If abnormal demand has been responsible for over-enthusiastic expansion and inflated profits in certain instances, the wage earner should not be made to suffer as he must if powerful forces effect lower automobile prices whether or no.

True enough, there have been many instances of inflated prices. There has been profiteering. And true enough, abnormal profits must be eliminated.

And that is what has been going on all around you recently — THE PRICE REDUCTIONS YOU HAVE WITNESSED IN AUTOMOBILES AND OTHER MERCHANDISE ARE THE BELATED SHAKING OUT OF THE ABNORMAL PROFITS. THE NORMAL PROFITS ARE STILL THERE.

Manufacturers whose goods have been priced on actual cost to produce, plus normal profit, have no inflated figures with which to appeal to the uninformed public in sensational announcements of "Price Reductions." Prudent, studious buyers will not be misguided by erroneous principles.

Oakland Price Advance in Five Years, Due to Increased Cost of Labor and Material, Only 27.4 Per Cent

In 1915 Model 32 Oakland Sensible Six was put on the market at \$795 f. o. b. factory.

Since 1915 the wheelbase of the Sensible Six has been lengthened five inches, its weight increased about four hundred pounds, its horsepower materially increased, its frame made deeper, and in many other ways the car has been enlarged, strengthened, improved and refined.

If the present Model 34-C had been built in 1915, it is more than conservative to say that, based on labor and material costs at that time, we would have been compelled to list it to sell at \$1,095, or more, f. o. b. factory.

We are therefore able to say, also with great conservatism, that the present price of Model 34-C represents an increase, due solely to increased costs of labor and material, of 27.4 per cent. Larger production each year has kept this increase at a low figure.

Compare this increase with the increase of other automobiles and with commodities—with the things you buy every day.

Nowhere have we been able to find a standard article of merchandise that has increased as little in selling price as the price of the Oakland Sensible Six.

IN THE EVENT OF UNEXPECTED REDUCTIONS IN THE COST OF LABOR AND MATERIAL THAT ENTER INTO THE CONSTRUCTION OF THE OAKLAND SENSIBLE SIX TO A POINT WHERE WE MAY PROPERLY AND LEGITIMATELY REDUCE THE LIST PRICE OF OUR CARS BETWEEN OCTOBER FIRST, 1920, AND MAY FIRST, 1921, WE WILL REFUND TO EVERY OAKLAND PURCHASER WHO BUYS WITHIN THE ABOVE MENTIONED PERIOD OF TIME THE AMOUNT OF SUCH REDUCTION.

FEW IDEAS OF REAL VALUE

Wireless Telegraphy and Telephony
Are Still Comparatively in the
Stages of Infancy.

"As every one knows, it is a comparatively simple thing to get a patent on anything, so long as you have a good patent attorney and are able to incorporate a few new knickknacks in your device. But such a thing as a really new idea, not to speak of a basic one, is scarcer than the proverbial hen's teeth."

Thus H. Gernsback, in the Radio Amateur News, comments on the rarity of anything new in wireless telegraphy or telephony. Inventors, he says, content themselves with making improvements in existing devices. These are good, but inventors should not get the idea that the last word has been said in basic principles. He says some one will probably discover a more sensitive detector than the vacuum tube; some one will devise a better transmitter; some one will invent a receiver that makes use of the eyes instead of the ears. "Get off the beaten path," he says.

To Give China a Bible.

Americans have spent \$132,000 so far to give China a Bible in its own language, the Mandarin. And just now they are agreeing to spend \$31,000 more to put the Bible into type and plates and to print and bind an edition. However, it is expected that copies will be sold to sufficient value to pay the printing bill, and it is further explained that these sums for expenditures are Mexican, which money is the standard of China at this time. It has been found by American scholars that the Chinese Mandarin is a wonderfully flexible language, capable of expressing almost every shade of meaning. More than twenty-five years has been the period of preparation, and foremost American and Chinese scholars have had part. The aim has been not only to give the Chinese people a Bible but to give them one that is pure in language and will set the standard for the republic that English translations set for the English-speaking world. This new Bible is for people who number more than a fourth of the world population.

GEN. WEYGAND OF ROYAL LINEAGE

Military Genius Directing the
Poles Said to Be Son of King
Leopold of Belgium.

CHIEF AID TO MARSHAL FOCH

Influence of Former Belgian King
Raised Weygand From an Obscure
Boy to High Position in
French Military Circles.

Brussels.—Gen. Maurice Weygand, the military genius who directed the Poles in their spectacular victory over the Russians, and who is now generally credited with a large share of Marshal Foch's achievements in the World war, is a son of the late King Leopold, of Belgium, according to persons who are intimately acquainted with Belgian court circles and the secrets thereof.

Rumors in Paris and Brussels regarding the paternity of the famous soldier were run down today with the following result:

It was former King Leopold's influence that raised Weygand from an obscure boy of unknown parentage to such a high position in French military circles that he was chosen chief of staff to Marshal Foch, commander in chief of the greatest army the world has ever seen.

General Weygand was born in Brussels in 1890. The names of his father and mother are not contained in the birth records, nor is the place of his birth given. He was first heard of under the care of a rich Brussels manufacturer who was a close friend of the former Belgian king.

Regarded as Orphan.

Young Weygand was then said to be an orphan. When he was eight years old he was adopted by a French family of the name of Weygand. The head of the family was employed by the Belgian manufacturer. The family was poor, but money was supplied to give the boy an excellent education. This aroused comment among the neighbors and gave rise to the query: "Who is furnishing the large sums to send the orphan to a high-priced school?"

The adopted boy received the name of his foster parents. Young Weygand, who was brilliant in his studies, showed a preference for military affairs. The friends and neighbors of the Weygand family were astonished when the youth entered the famous French military academy at St. Cyr. He was admitted as a foreigner, although he had been adopted by a French family.

Lieutenant Colonel at Twenty-Six.
Weygand displayed the same brilliance at St. Cyr that marked his earlier educational course. He passed into the French army after his graduation. He rose to a lieutenant colonelcy, receiving his post in 1912, when he was only twenty-six years old.

At the outbreak of the World war Lieutenant Colonel Weygand was made chief of staff to Foch. He planned Foch's brilliant stroke when that general was commanding an army corps at the first battle of the Marne. Lieutenant Colonel Weygand was promoted to a major general in August, 1916, and became France's representative on the supreme war council. Later he was president of the inter-allied military committee at Versailles.

General Weygand was the constant companion of Marshal Foch, who described him as "a man with a head and soul—the kind you can rely on." All biographies of General Weygand and also his most intimate friends are extremely reticent on the subject of his origin.

RUMPUS OVER PIG'S BATH

Mrs. O'Connor Said It Must Be Hot,
Husband Insisted on Cold
Water.

Pittsburgh.—Thomas O'Connor and his wife could not come to an agreement on bathing their pig. The wife declared hot water was always used for a pig's ablutions. O'Connor disputed her knowledge and declared emphatically he had bathed pigs in Ireland and elsewhere, and that a cold bath was more to their liking.

When Mrs. O'Connor placed a small pan on the stove to warm the porker's bath water O'Connor waxed indignant. By way of emphasis he landed an upercut on his wife's jaw. In morals court Magistrate DeWolf gave O'Connor ten days in jail, after which Mrs. O'Connor told the court the pig would get a hot bath.

Rancher Kills Mountain Lion,
Reno, Nev.—A mountain lion invaded the farm house of C. J. Cann near Battle Mountain, according to Arthur Lamb, a Battle Mountain rancher who was in Reno recently. The lion approached the house about midnight and attempted to gain entrance through a window, breaking several panes of glass. Cann was awakened by the noise and seized a chair, knocking the animal down. The lion attempted to jump in again, but was again beaten back. Cann's wife then secured his rifle and on the next attempt the lion was killed. It was small in size and the body will be sent to the state hygienic laboratory here in order that a test for rabies may be performed.

Palestine is the only country which has no postage stamp of its own. But representatives of the Zionist government have informed London philatelists that this anomaly promises soon to be rectified, for, with the establishment of Palestine as the national home of the Jewish nation, it is believed little time will be lost in emulating the examples of other small nations called into being by mandates of the peace conference by the issuance of distinctive stamps. Stamps sold by British army post offices in adjacent former enemy territory are being utilized by overprinting with the word "Palestine."

IMPROVES ELLIS ISLAND WELCOME

United States Government Makes Sweeping Changes at the Gateway to America.

HARSH ATTENDANTS LET OUT

Freedom and Sunshine Being Planned for New Arrivals—Kind and Decent Treatment Are Now Demanded for Immigrants.

New York.—Sweeping changes are being made at America's gateway—Ellis Island—by Immigration Commissioner Frederick A. Wallis, who proposes to make the big immigration station more comfortable for the newcomers to the United States.

Freedom and sunshine are being planned for the new arrivals by the commissioner, who has just announced plans for improving conditions in general on the island.

Large buildings are to be added for, he says, sanitary conditions are to be improved, additional cots provided for those unable to get beds and many other conveniences for the immigrant are to be installed.

Harsh Attendants Discharged.
Kind and decent treatment for all new arrivals has been demanded by Commissioner Wallis, who has already announced the discharge of some of the veteran attendants for alleged harshness or inefficiency in receiving immigrants. Their places have been filled by more courteous, attentive and younger men.

"I propose to make this receiving station representative of all America promises," he said.

One of the latest improvements by Commissioner Wallis has been the supplying of warm milk to mothers with babies.

Wants Radicals Removed.
Commissioner Wallis has appealed to Washington to remove the alleged radicals and anarchists detained at the island for deportation, because of crowded conditions at the immigration station.

"They are a defiant lot and should be deported," he explained. "They occupy a room that could accommodate a couple of hundred immigrants."

Railroads have also been asked by the commissioner to provide better transportation facilities for the immigrants and stop employees from "grafting" from the newcomers. He also wants them to be properly fed while being detained for entrainment.

While funds are not immediately available for improvements at the island, Commissioner Wallis states he will ask congress to raise funds by public subscription, if the necessary money cannot be provided by the government.

PULLMAN BANDITS SLEEPY

Rob Passengers and Are Caught While Slumbering in an Upper Berth.

Perry, Ia.—After robbing all of the passengers in a Pullman sleeper on a west-bound Chicago, Milwaukee & St. Paul train of practically every article of clothing and jewelry and packing it in grips and bags, J. C. Setner, nineteen, Kansas City, Mo., and Solomon Dubrov, twenty, Jersey City, N. J., crawled into an upper berth and went to sleep, though they paid no fare.

The loss was discovered by J. F. Murphy of Sioux City, who watched proceedings while the other passengers slept and saw the youths climb into the berth above. He reported the matter to the train crew, who wired the sheriff at Clarion, Ia.

When taken from the train it was found that the two men had \$500 worth of watches and jewelry, eight men's suits and the contents of seven women's traveling bags, besides several bottles of liquor, which none of the passengers claimed.

THIBETAN YAK FOR ALASKA

United States Government to Experiment With Asiatic Animals.

Dawson, Y. T.—Two yak, natives of the high, cold regions of Tibet, passed through here recently on their way to Fairbanks, Alaska, where they will be established at the United States government experimental station.

Government officials believe the yak will thrive in the dry, cold regions of Alaska and the Yukon territory.

In Tibet the animals are used as beasts of burden and produce excellent beef and rich milk and butter, while their silky hair is woven into fabrics and the hides, bones and tallow afford several valuable by-products.

Small Boy Rescues Baby Girl.
Coal City, Ind.—A small boy who was let down into a well on a rope at the home of J. W. Free, rescued the one-year-old daughter of Mr. and Mrs. W. H. Morris of Hymers from drowning. The child fell into the well when she stepped on a movable cover in the platform. A bruise on one arm caused by striking a bucket which was hanging in the well, was the only injury suffered by the baby. Mr. and Mrs. Morris were visiting at the Free farm.

Burden of Public Debts.
The annual interest on the debt of Great Britain is 12.62 per cent of her income, that of France 32.17 per cent, that of Italy 14.43 per cent, that of the United States 2.73 per cent, that of Germany 20.96 per cent, that of Austria 25.92 per cent, that of Hungary 24.73 per cent, that of Bulgaria 21.50 per cent, and that of Turkey 17.60 per cent.

LONDON MOURNS FOR ITS KIWI

Only Apteryx in England Is No More—Wingless Bird Is Believed Nearly Extinct.

The total extinction in England of the kiwi (or apteryx) has become a reality. The London Daily Mail announces the death of the Regent's park zoo's only specimen. The species is nearly extinct in New Zealand now, but the British Zoological society has written to the New Zealand government asking if just one more kiwi can be spared from the island sanctuary.

Zoologists will mourn the loss of the dwarf wingless ostrich more than the zoo visitors, for not one in ten thousand ever saw it while it lived there more than nine years. The keeper would turn out this queerest of birds every now and then, but the long-billed bundle of apathy and sleepiness scrambled back into its box as soon as released.

A curious point about the kiwi is the fact that its nostrils are at the tip of its long worm-biting beak, and in the arduous of the chase it emits an unpleasant snuffling noise. Its mating call is a pig-like squeal.

England is responsible for the virtual extinction of this rare bird. British ships brought rats to New Zealand, so weasels were sent to exterminate the rats. When they had nearly wiped out the kiwi, the New Zealand government found a ratless island and consecrated it to the poor bird. But the problem of saving an idiot bird that puts all its eggs into one shell, so to speak, was a difficult one. The kiwi laid one egg a season, nearly as big as itself. Exceptional mothers would lay two eggs and then find it almost impossible to hatch both, as the ends would project out beyond their feathers as they sat on them.

OF INTEREST TO WOMEN

This Is a Short Letter, but It Brings a Message of Importance to every Woman.

Woodford, Vt.—I took Lydia E. Pinkham's Vegetable Compound and Liver Pills before my children were born and it did me a great deal of good. My baby weighed 15 pounds and I did not suffer many pains. You can publish this letter if you wish for I don't mind. I have your medicine for my next childbirth. Mrs. John L. Burt, Woodford, Vt.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ailments is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and as it contains no narcotic or harmful drugs it is a safe medicine for women.

If you want special advice, write Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

\$1,500 PEARL FOUND IN CLAM

Railroad Laborer's Fourteen-Year-Old Daughter Makes Unusual Find in Iowa.

Shenandoah, Ia.—One Sunday afternoon Carl Simerson of Charles City, Ia., went clamming near Nashua with his fourteen-year-old daughter, who is the oldest of nine. The first shell the girl picked up contained a pearl which has since been valued at \$1,500. It is perfectly round, weighing 12 grains, about the size of a large pea, white with a beautiful luster at every point.

Simerson is a laborer on the Illinois Central railroad at Nashua and lives in a little cottage near the tracks.

Young Captain of Industry.

Denver, Colo.—George Gardens, thirteen years of age, student at Manual high school, is Denver's youngest "captain of industry." When a shortage of charcoal crayons at the high school became acute and the supply at downtown stores was exhausted, George constructed a small charcoal oven on a vacant lot and is now manufacturing what is claimed to be an excellent grade of crayon. The oven is operating 24 hours a day and young Gardens is reaping a tidy sum from sales of the crayon to students.

HERE IS GOOD NEWS

For Pile sufferers. A western physician has discovered a harmless compound known as Hem-Roid. In many cases of years' standing all distress quickly disappeared. George S. Slade now sells it with money back guarantee.

G. W. Groves & Co., in Charge

The Company announces the inauguration on October 1st, 1920, of a merit system for its motormen and conductors.

The system will enable efficient men to earn a cash bonus every three months; on the other hand if a man received sufficient demerits, and was insufficient merits to his credit he becomes a candidate for discharge.

Motormen and conductors are presumed to be able and willing to perform a certain amount of service. If one falls short of rendering what is due, one or more demerits will be entered against him; if he does more than may be reasonably expected or acts creditably in any emergency or strives generally to promote the interests of the Company he will receive credit for it.

The patrons of the Company are invited to cooperate with the management in trying to improve the service and retard the increasing operating costs by advising the undersigned of acts that come under their observation which deserve merits or demerits.
